Our Patented System

Our revolutionary 'Single Track Design' allows for unparalleled coverage, ease of deployment and unrelenting protection from both the sun and rain. As demonstrated above, our canopy assembly suspends from the single track, producing a peak which forces rain to run off on either side of the canopy track. ShadeFX systems are engineered to operate without the need for a slope, providing a virtually flat installation. Our innovative solution facilitates even the most eclectic designs and tastes, while setting the new industry standard in outdoor space utility.

Welcome to ShadeFX.

Client Testimonials

“ShadeFX worked directly with Boston Pizza and our partners to specify, order and install four motorized canopies at our Tsawwassen Mills location. Their team was proactive in moving the project forward to ensure we met the grand opening date.”

– Sonya White, Project Manager, Construction & Development Boston Pizza International, Vancouver, BC

“The new Cascades Casino in Kamloops, British Columbia is designed to include multiple restaurants that include large outdoor spaces. With such a great area of outdoor dining space we needed a shading solution that can not only cover and protect during harsh weather conditions, but also have the ability to be discrete when retracted. ShadeFX worked with our Interior Design and Architectural teams to develop a solution that worked with our overall concept. Their knowledge and engineering offered us the best solution for our restaurant and patio design.”

– Jason Chin, Design Leader, mackaywong, Vancouver, BC

“With a large seating capacity on our patio, it is vital the space use is not compromised by unfavourable weather conditions. At the push of a button we can operate all eight retractable canopies in sync or individually, providing us ultimate flexibility in protection and coverage. Gone are the days of worrying about weather, our patio is always open, rain or shine. Thank you ShadeFX.”

– Christine Meijer, General Manager, Earls Kitchen + Bar, Toronto, ON
